Internet

All business services come with priority after-hours support and free static IP address (if requested). Details are available at www.mynextfiber.com. Gigabit is a maximum capacity. Speed is likely to be slower because transport overhead and other locations on the internet are not yet gigabit-capable. Few wireless routers support gigabit connection speeds. Gigabit speeds are “best-effort” and not guaranteed. Speeds in the 700 to 900 Mbps range are most common on gigabit tier.

Telephone

Unlimited local and long-distance telephone service includes the entire United States and Canada. International calling plans are available. Calls to cellular phones are not included in international calling plans. Standard features include three-way calling, caller ID, call forwarding, call waiting and voice mail. Additional services are available for additional cost. See www.mynextfiber.com for details. Prices do not include applicable taxes, regulatory and/or local government franchise fees. Each additional line is \$18/residential and \$20/business. Business phone lease is \$12.50 per phone per month. VOIP service is provided by a third party.

Television

Business prices vary for hospitality businesses. Each HD set-top box is \$6.95 a month. HBO, Cinemax, Showtime, Starz and StarzEncore carry an additional charge with all packages except Ultra. Sports and Variety packages carry an additional charge with all packages except Ultra. Add-ons are not available with Local package. Prices do not include applicable taxes, regulatory and/or local government franchise fees.

Pricing reflects recurring monthly charges. Prices and packages are subject to change.
